Assistant Commissioner for Patents  
Washington, D.C. 20231

On 3 Sept. 2002

TOWNSEND and TOWNSEND and CREW LLP

By: Malinda O'Neil

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

In re application of:

WANG et al.

Application No.: 09/870,353

Filed: May 30, 2001

For: IMPROVED NUCLEIC ACID  
MODIFYING ENZYMES

Examiner: Not yet assigned

Art Unit: 1633

SUPPLEMENTAL INFORMATION  
DISCLOSURE STATEMENT UNDER 37  
CFR §1.97 and §1.98

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

The reference cited on attached form PTO/SB/08B is being called to the attention of the Examiner. A copy of the reference is enclosed. This reference has been newly cited by the examining authority in the corresponding PCT application. A copy of the relevant part of the Written Opinion is enclosed. It is respectfully requested that the cited reference be expressly considered during the prosecution of this application, and the reference be made of record therein and appear among the "references cited" on any patent to issue therefrom.

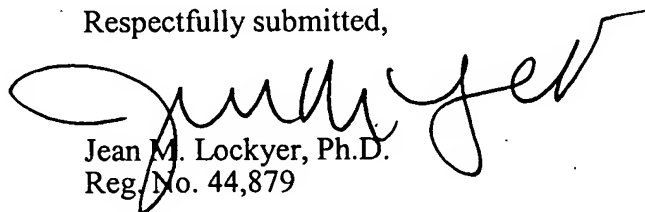

As provided for by 37 CFR 1.97(g) and (h), no inference should be made that the information and references cited are prior art merely because they are in this statement and no

representation is being made that a search has been conducted or that this statement encompasses all the possible relevant information.

Applicant believes that no fee is required for submission of this statement.

However, if a fee is required, the Commissioner is authorized to deduct such fee from the undersigned's Deposit Account No. 20-1430. Please deduct any additional fees from, or credit any overpayment to, the above-noted Deposit Account.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Jean M. Lockyer', is written over the typed name and registration number.

<sup>1</sup> Applicant's unique citation designation number (optional). <sup>2</sup> Applicant is to place a check mark here if English language Translation is attached.

**Burden Hour Statement:** This form is estimated to take 2.0 hours to complete. Time will vary depending upon the needs of the individual case. Any comments on the amount of time you are required to complete this form should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, Washington, DC 20231. **DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO:** Assistant Commissioner for Patents, Washington, DC 20231.

WRITTEN OPINION

International application No.  
PCT/US01/17492

**V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**

**1. STATEMENT**

Novelty (N)	Claims <u>3-5, 7-23, 26-28 and 30-44</u>	YES
	Claims <u>1, 2, 6, 24, 25 and 29</u>	NO
Inventive Step (IS)	Claims <u>3-5, 7-23, 26-28 and 30-44</u>	YES
	Claims <u>1, 2, 6, 24, 25 and 29</u>	NO
Industrial Applicability (IA)	Claims <u>1-44</u>	YES
	Claims <u>NONE</u>	NO

**2. CITATIONS AND EXPLANATIONS**

Claims 1, 2, 6, 24, 25 and 29 lack novelty under PCT Article 33(2) as being anticipated by CARRODEGUAS et al. CARRODEGUAS et al. teach the cloning of the cDNA which encodes the accessory subunit of *Xenopus laevis* mitochondrial DNA (mtDNA) polymerase  $\gamma$  (pol  $\gamma$ ) and teach that the *Xenopus* accessory subunit  $\gamma$ B binds to the human  $\gamma$ A catalytic subunit and this association of the *Xenopus* accessory subunit with human  $\gamma$ A increased the processivity of the  $\gamma$ A catalytic subunit relative to the same protein in the absence of the *Xenopus*  $\gamma$ B subunit. CARRODEGUAS et al. teach the ability of the *Xenopus*  $\gamma$ B subunit to increase the processivity of the human  $\gamma$ A catalytic subunit using an assay/method of modifying a nucleic acid in an aqueous solution by contacting the nucleic acid with the heterologous protein subunits and permitting the catalytic subunit to modify the nucleic acid solution.

Claims 3-5, 7-23, 26-28 and 30-44 meet the criteria set out in PCT Article 33(2)-(3) because the prior art does not teach or fairly suggest the claimed invention.

---NEW CITATIONS---

CARRODEGUAS et al. The Accessory Subunit of *Xenopus laevis* Mitochondrial DNA Polymerase gamma Increases Processivity of the Catalytic Subunit of Human DNA Polymerase gamma and Is Related to Class II Aminoacyl-tRNA Synthetases. Molecular and Cellular Biology. June 1999, Vol. 19, No. 6, pages 4039-4046. See entire document especially page 4043.

INFORMATION DISCLOSURE  
STATEMENT UNDER 37 CFR §1.97 and  
§1.98

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

The references cited on attached form PTO/SB/08A and PTO/SB/08B are being called to the attention of the Examiner. Copies of the references are enclosed. Also enclosed is a copy of the International Search Report from the corresponding PCT application. It is respectfully requested that the cited references be expressly considered during the prosecution of this application, and the references be made of record therein and appear among the "references cited" on any patent to issue therefrom.

As provided for by 37 CFR 1.97(g) and (h), no inference should be made that the information and references cited are prior art merely because they are in this statement and no

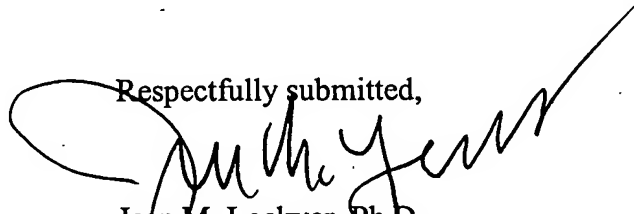

representation is being made that a search has been conducted or that this statement encompasses all the possible relevant information.

CERTIFICATION

I hereby certify that no item of information in the information disclosure statement filed herewith was cited in a communication from a foreign patent office in a counterpart foreign application or, to my knowledge after making reasonable inquiry, was known to any individual designated in Section 1.56(c) more than three months prior to the filing of this information disclosure statement.

Applicant believes that no fee is required for submission of this statement, since it is being submitted prior to the first Office Action on the merits. However, if a fee is required, the Commissioner is authorized to deduct such fee from the undersigned's Deposit Account No. 20-1430. Please deduct any additional fees from, or credit any overpayment to, the above-noted Deposit Account.

Respectfully submitted,
